

# First Lego League

(5th & 6th Graders)

We had four teams in First Lego League this year: Space Invaders, Galactic Gods, Gravity Goats and Supernova Supreme. All three teams did all sorts of missions to rack up all the points they could get. Galactic Goats got 2nd place and Space Invaders won Quarter Finals and moved to Semi Finals!

# First Tech Challenge

(7th & 8th Graders)

We had two First Tech Challenge teams this year. Team 11246 - Victor Tech Titans and Team 11245 - Scitobor Rotciv (Victor Robotics spelled backwards.... Pretty cool..right?) Both teams came up with completely different designs of robots. We had quite a few rookie coaches and team members, but all the efforts paid off on December 15th. The FTC competition at St John Fisher was amazing with robots, matches, scores, team spirit, etc. Team 11246 came in 6th at the competition whereas Team 11245 came in 4th and made it to Quarter Finals!
